

Handcrafted Jewelry

by Danute Mileika

I was born in Lithuania, where I graduated from the Lithuanian Music and Theater Academy, with major in Classical Singing. I have resided in Boston since 1994.

When I am not singing, I find great satisfaction in creating one-of-a-kind jewelry or reviving an old amber necklace to a new life.

Classic patterns and textures inspire me. When creating my pieces I realized that they can take on a life of their own, which further fuels the creative process.

I love and appreciate natural materials. My one-of-a-kind handcrafted designs are created of fine sterling silver, gold-filled semi-precious gemstones, amber, pearls, shells, and Swarovski crystals.
