AMBER JEWELRY DESIGNER, JEWELER, ARTIST

I was born in Kretinga, Lithuania. I was artistically inclined and creative since childhood. I grew up in an amber jewelers' family, yet I got interested in amber much later as an adult, when I moved to the USA. Working with amber came to me naturally as it is my family craft and I was born into it. Amber is my connection to my family, Lithuania, my roots, and tradition. I design amber jewelry, create a concept, but pieces are executed by my family members.

Lately I've been experimenting with Polymer clay and I have discovered its endless possibilities. My clay jewelry reflects seasons and nature, every piece is unique, and ornaments are handmade from other color clay and incorporated into the beads.
